

# Small Animal Veterinary Emergency Services

June 15, 2010

Dear Colleague:

We, the doctors and staff of Small Animal Veterinary Emergency Services (S.A.V.E.S.), thank you for your referral.

We would like to generate a database and would appreciate having you complete the following "Referring Veterinarian Preferences" form. When you are finished please return it to us as soon as possible either by FAX or by mail. Your information will be kept confidential. We would like a preference sheet for each veterinarian in your practice, if possible, so please feel free to pass them around. We appreciate the time you take to complete these forms and welcome any comments you may have. If you have any questions or comments, please call Jodi Kelly, our patient coordinator.

You will also find enclosed a "Referral Summary Sheet". Please use this form to list clinical information about the patient you are sending. You may choose to send it with the client for their appointment, or send it to us prior to their arrival via mail or FAX.

As a reminder, we are available 24 hours a day, 7 days a week. A doctor is always on duty to receive and treat your patients, and for telephone consultation.

Thank you very much for your support and confidence in our practice.

Sincerely,

Director of S.A.V.E.S  
Dr. Daniel Kelly
